WHAT WE DO

J.S. Ferraro & Company Inc. offers custom margin management solutions specializing in meat and livestock. We leverage years of experience in agricultural commodities to help manage risk for owners of mid-to-large-sized farms, large corporations with agriculture risk exposure, and related vendors and suppliers.

WHAT WE'RE LOOKING FOR

We're looking for a proactive numbers enthusiast who has a passion for understanding the market and analyzing information. The Data Analyst researches and presents analyses of various hedging alternatives and recommends potential strategies to limit market risk and/or to enhance returns. By leveraging strong excel and analytical ability, the role will support the JSF team in building new data sets and data structures as required, and will assist in designing how they will integrate with existing data sets. They will be a critical interface with IT and Finance to ensure the integrity of the data environment is protected.

WHAT YOU'LL NEED

- To be successful in this role, the ideal candidate will have core competencies in the following areas:
- Proficiency in Microsoft Suite of Office Products (i.e. Word, Excel, PowerPoint), Excel proficiency, functions and working with large volumes of data
- Ability to draw insights from information and convey complex information in a straightforward manner
- Strong interpersonal skills, logical and efficient, with keen attention to detail
- Ability to work independently and in a team environment
- Strong organizational skills and ability to prioritize work in a demanding environment
- Excellent oral and written communication skills
- Client focused, proactive and results-oriented

WHO YOU'LL WORK WITH

During the summer work term, you will report to the Director of Quantitative Trading.

HOW WE MEASURE SUCCESS

We are committed to the development of our summer students and will work with you to continuously assess your improvement and performance throughout your term.
